PROFILE

As an ambitious and passionate web developer, I aim to create meaningful web applications that help people communicate with their end users and foster impacting relationships. I have a passion for analyzing the ways in which people convey ideas to one another, and I'm enthusiastic about building well-designed applications that apply my curiosity for innovative coding methods and help me understand more about the world around me.

DEVELOPMENT SKILLS

HTML, CSS, SASS, BEM
JavaScript, React, Node.js, Express.js

Project Management

Git, GitHub, Heroku

Agile Dev, JIRA

DOM & Web APIs, Axios

EJS, jQuery

Ant Design, Bootstrap

MySQL, Knex, MongoDB

Jest, Supertest

User Authentication, OAuth

PHP, Docker, Flutter

SPOKEN LANGUAGES

Fluent in English and French
Intermediate Mandarin

PROJECTS

Developer/Creator | KitchenCompanion Customizable Cookbook
NOV - DEC 2021, BrainStation Web Development Bootcamp, Capstone Project

- Solved problem space of "What to make for dinner?" by creating an application that uses filtered API calls to retrieve recipes based on custom search criteria.
- Created a seamless user experience between components by implementing MVC design principles and utilizing Ant Design UI framework.
- Incorporated Winwheel.js by troubleshooting and tailouring its functionality.
  Stack: React, JavaScript, Node.js, MySQL, SASS, Winwheel.js, Ant Design, Spoonacular API

Developer/Creator | encounterDex
JAN - FEB 2022, Personal Project

- Created a React application that efficiently sorts and lists Pokémon by area.
- Solved data-filtering challenges through advanced use of higher-order function chaining to improve how relevant information is displayed.
- Optimized user experience on devices of any size through responsive design.
  Stack: React, JavaScript, Node.js, Express.js, SASS, Material UI, PokéAPI

Developer | InStock
NOV 2021, BrainStation Web Development Bootcamp, Industry Project

- Implemented an inventory and warehouse tracking application by making effective use of CRUD operations and form validation techniques.
- Achieved success as a team of 5 by applying Agile methodology, using JIRA ticketing system and communicating all progress and issues through constant collaboration and daily stand-ups.
  Stack: React, JavaScript, Node.js, Express.js, SASS, LibPhoneNumber.js, JIRA

EDUCATION

Diploma, Web Development | BrainStation
SEPT 2021 - DEC 2021   TORONTO, ON

BA, Specialization in FR-EN Translation | University of Ottawa
SEPT 2007 - JULY 2011   OTTAWA, ON
Honours, *cum laude*

EXPERIENCE

Project Manager | MCIS Language Solutions
NOV 2018 - AUG 2021   TORONTO, ON

- Increased Translation Department revenue to its highest two years in a row through timely project delivery and maintaining strong relationships with 4-6 key clients at a time, leading to a greater volume of requests.
- Received consistently excellent client feedback by providing exceptional customer service and effectively communicating with clients and contractors.
- Improved cost savings by 10% on computer-assisted translation projects by implementing memoQ translation environment and onboarding contractors.

In-Home Services (IHS) Coordinator | SPRINT Senior Care
FEB 2014 - NOV 2018   TORONTO, ON

- Exceeded care needs of clients in catchment area (40-60) by creating individualized care plans and communicating with clients, PSWs and funders.
- Increased efficiency of care provision by equipping 50+ PSWs with smartphones that aid in documenting care and creating a training program for device use.
- Strengthened relationships with clients and PSWs by encouraging open communication and advocating for best care practices.
